

STATE - EPA MEETING
Harco Site, 44 Old Mill Road, Wilton, CT

AGENDA

Tuesday - June 16, 1992 @ 10:00 a.m., State Office, 5th floor, 18-20 Trinity Street, Hartford, CT.

OBJECTIVES: How to effectively spend the limited EPA allocated Removal Budget of \$480,000 at the Harco site.

BACKGROUND:

- Administrative Record
 - a. Action Memorandum
- Extent of Contamination Study-March 1992

REMOVAL OPTION

- ERT/REAC Treatability Study-March 22, 1992
 - a. Environmental impact
 - b. Cleanup option levels
 - c. Cleanup levels (EPA OSWER Directive)

ISSUES

- Limited EPA \$\$\$ for project
- Wetlands
 - a. High water table
 - b. emergency water discharge requirements
 - c. restoration
- Limited roadway access

STATE of CONNECTICUT ROLE

ARAR's

GILBERT and BENNETT FACILITY

- PRP Notice for the Harco site
- RCRA Action at the Gilbert & Bennett facility
 - a. Cleanup/closure

SEMS DocID

674436

BACKGROUND: 800 cubic yard of sludge and slag was deposited at the site. It was compounded by the onsite solidification and burial with on site materials to an estimated volume of 3200 cubic yards.

PROBLEMS: A high water table exist due to a perched collection system. The proximity to nearby wetlands and the requirement during excavation to pump, treat and discharge involve local wetlands regulations. Due to the water problems on site, any excavation should be performed during the dry season of July, August or September. Another problem is the limited access and roadway system up to the site due to the heavy bedrock formation of the area.
